To the Parents of High School Students,

As the parents of a high school student, you will need to fill out the enclosed High School Planning Sheets and mail the school a copy *by the end of the first semester*. This is to help both you and the school in planning for your student's four years of high school, so they will have the credits required for a diploma and/or college admission. If you have any questions, or need help in filling out the planning sheets, let us know. If you're not sure yet which subjects will be taken each year, fill out those you know (following the guideline for credits in the High School portion of the Handbook). You can always add or make changes later.

If your student doesn't plan to go to college, or work toward a diploma, please let us know and we will note it in his/her records. In this case, you do not need to fill out the planning sheets.

Also, for your student's high school career, please keep the portfolio (as detailed in the Allendale Academy Handbook) for the entire four years of high school. This differs from the requirement to keep a portfolio for two years, as specified for grades K-8.

If your student would be interested in dual-enrollment information for earning college credit while homeschooling in high school, let us know.

For Florida students, if you would like information on the Florida Bright Futures Scholarship Program or the Florida Virtual School, let us know.

Sincerely,
Ray Collins, School Director
