Specific course title – *Textbook title*, publisher name*, ISBN, **book level (if applicable)**⁺⁺

Example: Calculus – *Calculus (with Analytic Geometry)*, Brooks Cole, ISBN: 061850298X, 8th Edition

****If more than one book is used for a single course in any of these academic years, include ALL titles and publishers used for that year.** Please refer to the grade 10 Biology example listed above.

Continue the pattern above throughout the entire length of the home school education. Please feel free to create your own format as long as it includes the exact textbook(s) title, publisher and the course in which the textbook is used. If course description is provided, please do not include textbook titles and publishers within description. Provide this information at end of the course description or on separate list.

Please note, the level of the textbook must be college preparatory. Please be careful when selecting textbooks to make sure they are the appropriate level.

* The NCAA Eligibility Center will only accept textbook and publisher information. It will not accept textbooks with author information only.

⁺⁺ If the book used has a level, please include the level used for that particular course (e.g., Level 1, Book C, Volume 2).
